**Happy Birthday Libra the Scales!** For those born September 23 - October 22! Key Phrase for **Libra** is "I BALANCE" The sign of Libra is ruled by lovely Venus and along with the 7<sup>th</sup> house rules relationships of all kinds, marriage, open enemies, law suits. Libra also rules the kidneys, and veins. Librans usually have a great many interests i.e.: theater, decorating, beautiful music, art collecting...anything that is aesthetically pleasing and luxurious. Librans are likable because they exude charm, grace and have elegant taste. They enjoy entertaining and all the comforts money can buy.

Libra abhors discord and will literally run in the opposite direction to avoid anything or anyone distasteful or unpleasant. You try to smooth over difficult situations and will "mediate" the atmosphere around you. In order to avoid difficult situations you will often hide or stifle your own true feelings. You are often indecisive and difficulty making firm decisions and commitments. Libra Rising (ascendant) individuals are often visually attractive, charming and usually have great legs! Libra ascendants are discussed in greater detail further in this newsletter.

Libra folks want their relationships to be fair and in balance. You are born diplomats. Often enough, the task is working at maintaining balance rather than being "in balance" naturally. Idealistic, naturally optimistic and romantic, Libra will do everything in their power to please you.

Libra is the only sign of the zodiac that is a mechanical device rather than an animal or human figure. "The scales in Libra had a deep significance for the Egyptians. It was said that at the time of death the goddess Maat placed the human soul on one scale and a feather on the other. If the scale tipped even slightly, the soul must reincarnate with the goal of releasing the extra weight. Since Libra comes before Scorpio, the sign associated with death - which the Egyptians honored in the eloquent preparations for the afterlife - the prime goal in life was to make the scales balance, or to prepare the soul for its afterlife" - Mythic Astrology, Guttman and Johnson.

Libra's polar opposite (7th house - partnerships, relationships, law suits, open enemies, marriage) is the cardinal, fire sign Aries (1st house- personality, self, physical appearance). The integration of me versus us is some areas of life for Libra, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite....the sign 180 degrees opposite itself. In this case, when under stress, Libra can become ...just like fiery Aries, ruled by war god Mars and lose their balance and become impulsive or impatient.

**Famous Libran's:** ☺ Jim Henson, Muppet Creator, September 24, George Gershwin, Composer, September 26, Sting, British Singer/Songwriter, October 2, Susan Sarandon, Actress, October 4, John Lennon, Song Writer/Musician, October 9, Luciano Pavarotti, Italian Tenor, and Leo the Cop who is saving lives in Mississippi, October 12, Bela Lugosi, Horror Film Actor - Dracula, October 20<sup>th</sup>, Dizzie Gillespie, Jazz Pioneer, October 21.

Tarot Card # 11 - Justice - Symbolic of Libra

Justice represents harmony and balance. In all the cards, we encounter the positive and negatives aspects of life. We must always choose between right and wrong, dark and light and find the shades of gray in between. Justice represents the balance that we must all create in order to live a healthy and fulfilling life.

The image in this card sits a woman between 2 columns. In her right hand she holds a double-edged sword, symbolic of the mind, duality and decision-making. In her left hand are the scales of justice used to find harmony and balance. There are often conflicting elements in our lives preventing us from achieving balance.

This card symbolizes The Universal Law of Equilibrium and pure intellect. The "Sword of Justice" eliminates waste and knows how to prioritize.

When this card appears in a reading, it suggest that you must look at the areas of imbalance or excess in your life to where moderation and equilibrium will bring you peace and replace chaos. Making a correct choice and being careful what you wish for is possible.

**THE DUCKS FLY MOON**

In Native American Astrology, those born from **September 23- October 22nd** are born under the **Ducks Fly Moon** and are the **Raven** people. Their gemstone is Jasper or Bloodstone and has properties to actually stop hemorrhaging/bleeding and provide the

owner with a long life. Raven people, when they have not found their balance, will fly from one mood to another. As we know, this kind of mood fluctuation can cause depression in some. Raven people who have found the balance in their lives can utilize their special psychic powers to help others find their own point of balance.

Raven people are also quite versatile and have the ability to shift and change. They are able to get over and smooth out discord in their surroundings and are adept in assisting others in the same. They are capable of making others feel soothed and welcome.

Raven people are very intelligent and are capable of soaring from one position to another rather quickly. These are people who are both comfortable on the earth and in the sky...on the material plane and spiritual plane. They do tend to be group oriented and enjoy the mutual support and cooperation from their group. Raven people often mate for life, however, some do not. They frequently find it difficult to make a decision about the relationship and will frequently change their mind about whether or not they have chosen the "right" partner. Harmony is very important to the Raven.

JUNO - Relating - The Wife (partial reprint from Oct 2004 Lunar Notes)

Juno is the goddess of marriage and was known for her fidelity and loyalty to her husband Zeus/Jupiter. The 6th month of June was sacred to her and traditionally many marriages take place during the month of June. Juno symbolizes the principle of relationship and like the sign of Libra, our most intimate partnerships. She also signifies the consummation of marriage and is also linked to the sign of Scorpio. Children and the rights of children are linked to Juno in the horoscope.

Recent research conducted by The Magi Society indicates how Juno may relate to addictions in the birth chart. Juno was jealous and prone to obsess over her husband Jupiter's extra marital affairs. The obsessive qualities of Juno may prevail when linked with Neptune as far as addictions go. I've not done any personal research on Juno relating to addictions, yet I will sometime in the not too distant future. To the best of my personal research, Neptune points to most addictions.

Juno in your horoscope can point to a "soul" mate partner and is often an indicator of compatibility between two birth charts. Juno yearns for a deeply committed, mystical and sexually fulfilling relationship. Unfortunately many of Juno's expectations in her marriage to Jupiter were not fulfilled and realized. Jupiter betrayed Juno by having numerous affairs while holding her loyal to him in her sexual chastity. He did not maintain sexual fidelity. Since her relationship needs were not met, she displayed a variety of complexes which included jealousy, abandonment issues, sacrifice, playing victim, giving away of power, manipulation, patterns of oppression, possessiveness and anger to name a few.

Juno wanted a relationship that was fair and reciprocal. However, what she experienced with Jupiter were power struggles, infidelity, oppression, disappointments and conflicts when she was faced with the reality of her marriage to Jupiter for what it really was.

Bringing the symbol of Juno in our relationship today is quite different. Having one monogamous relationship our entire life is no longer the norm, nor is it practical. We live so much longer and are more spiritually aware and growth oriented. It is more common for us to engage in serial monogamy where we may have 3 or 4 long-term partners or marriages during our life. I do not believe that most people are naturally monogamous, although I believe that planets in some signs are more prone towards monogamy, it is a choice some people make for themselves and their relationship. That choice is one of maintaining intimacy, security and stability within an existing relationship. Let's face it, the more distractions or people you bring into a marriage the greater likelihood for that marriage to break down over time anyway. Fear of committing or being truly "intimate" with a partner may also cause one or both to seek excitement outside of the marriage. Cyber affairs come to mind here.

Perhaps Juno had unrealistic expectations in her marriage to Jupiter/Jupiter. She assumed that in marriage she would be Jupiter's only sexual partner. When she discovered this was not the case, she became enraged, jealous and very possessive of him. She remained faithful to him despite his infidelity. This was her choice. Her faithfulness was one of Juno's finest attributes. She stood by her man, no matter what. The unfortunate part of this was that her unhappiness and sadness was internalized. The sexual boundaries in their marriage were betrayed. When we internalize hurt and pain and feel unfulfilled a variety of pathologies can surface i.e.: resentment, regret and bitterness. She might have asked herself some questions: How much must I sacrifice to be in this marriage? When does the sacrifice to be in this marriage betray who I am and what I value most? Is my compromise appreciated? Astrologically, here Juno would signify the lack of acknowledgment received from her partner and the emerging resentment that her needs are not being met.

When we take a vow of marriage most people think their spouse automatically takes a vow of fidelity. How many people ask their partner, beforehand, if they want only one sexual partner during the marriage and more importantly can they be monogamous? Given the high incidence of "affairs" in our society, I think we need to discuss issues of fidelity "before" we legally tie the knot, don't you agree? It is mostly assumed that because you have a legal document, a marriage certificate, this implies fidelity and the marriage will be a monogamous relationship. In actuality, it only implies a legal commitment ("Til Divorce do us part.") and a tax deduction. Actually, in the vows of marriage there is nothing insinuating fidelity.

Our patriarchal society imposes and assumes monogamy and restricts our basic, inherent instinct to procreate, at will. Monogamy and fidelity is a choice. It should never be assumed or taken for granted. Both celibacy and monogamy are choices you make and it is human nature and your basic right to be able to change your mind about it. Astrologer Jeffrey Green comments on this and states that the concept of monogamy, one sexual partner for life, exists because men wanted to own and possess their partners. The beginning of patriarchy has its roots in the knowledge that men have an "interest" in and contributed to the conception of children...this was the beginning of patriarchy. Their partners were then considered property to own. Is this why when women marry they

suddenly becomes Mrs. "His last name"? These are issues surrounding the position of Juno in the birth chart.

"I believe in karma, what you give is what you get in return,
I believe you can't appreciate real love until you get burned.
I believe the grass is no more greener on the other side.
I believe you don't know what you've got until you say goodbye.
I believe you can't control or choose your sexuality,
I believe that trust is more important than monogamy."
- Savage Garden - Affirmation

The house in which Juno resides in your birth chart points to where you are most committed or obsessed. For instance, Juno in the 10th house might show a person most committed to work and their profession. It might also say that having a "wife" or "husband" and having the identity of being "married" is important to the career. Juno conjunct (close in degree) the Sun would manifest similarly and might also say "I don't exist without a partner" or "I need to have a committed partner or I am committed to partnering". My own Juno resides in house 9 in the sign of Leo, the house of higher learning, beliefs, spirituality, philosophies and long distance travel. I have on more than one occasion been in a relationship with someone from another country, ethnicity or in relationship with a partner who traveled for work. I also need my partner to share in similar philosophies of life and a spiritual path. In the sign of Leo, I tend to attract Fire signs (Aries, Leo, Sagittarius) or a fiery personality. Juno in Leo in the 9th house would show the need for a loyal and devoted partner, one to feel proud of (Leo). The other side of that is that I am a devoted (Leo) and fair and open-minded (9th house- Jupiter energy) partner in return.

Today, the placement of Juno in your chart may also symbolize the area of life where you should be open to change and balance in your relationship. If Juno lived in 2005 perhaps she would have divorced Jupiter. Perhaps she would not have accepted the back seat in their marriage. Women today want equal say in their relationships and don't necessarily see it their duty to stay and protect the home life if it means giving up parts of themselves to stay married.

Juno is currently transiting at 15 degrees of Gemini. Juno in the sign of Gemini desires communication and a mental connection with their partner. The ideal partner is one who is versatile and intellectually stimulating conservative. If your Juno is in the sign of Gemini you may desire a youthful or youthful minded partner.

**October, 2005**

**Our Moon changes signs approximately every 2 ½ days.**

**September 22, 2005 - Fall Equinox - Sun Enters Libra** - There are greater geomagnetic disturbances in the ocean during March/April, the Spring Equinox (Aries), and September/October during the Autumn Equinox (Libra). Fewer disturbances are found at the Solstice points of December/January (Capricorn) and June/July (Cancer).

**October 1, 2005 - Mars turned retrograde at 23 Taurus 22'** - Mars will stay retrograde in the sign of Taurus until December 10<sup>th</sup> and will move forward at 8 degrees 14 minutes. If you have any planets from 24 to 8 degrees you will be affected especially if you have planets in the sign of Taurus, Scorpio, Leo and Aquarius. You will also be affected if you have any planets in the sign of Aries, since Mars is the ruler of Aries. In Taurus, Mars feel a little stifled at first. He is slow to warm up. Yet once he gets moving he begins to pick up strength and endurance and is in it for the long haul. When retrograde you may feel a lack of energy or an inability to move forward in the area of life Mars rules in your birth chart. This is not the time to start any new business ventures as they will be stalled or involve complications that will not clear until Mars turns direct. Legal battles will only frustrate you so try to hold off initiating any during this time. Mars is our energy and sexuality, how we pursue our goals. When retrograde you may feel as if we are hitting a wall and have to try ever so much harder to attain your goals. Mars ends the month at 17 Taurus 36'.

**October 3, 2005: New Moon 10 Libra 19' - (Solar Eclipse)** The New Moon is always a good time to start a new project or work on areas of your life you've placed on hold. New beginnings are associated with New Moons. The Eclipse is discussed further in this newsletter.

**October 9, 2005 - Mercury in Libra enters Scorpio.** While Mercury in Libra has a need for balance and calm discussions, Mercury in Scorpio is intense, penetrating, has no interest in superficial chatter and seeks to uncover truths.

**October 9, 2005 - Venus in Scorpio enters Sagittarius.** Venus in Scorpio values relationship intensity. Jealousy in love is possible. Finances play an important role in choosing a partner they are attracted to. When in Sagittarius, Venus is carefree, seeks freedom and wants to romp and play.

**October 17, 2005: Full Moon 24 Aries 13' - (Full Moon Partial Lunar Eclipse).** A full moon is a culmination of energy from the last New Moon, approximately 14 days earlier. In the fiery, cardinal sign of Aries; this is culmination of pent up energy waiting to spring forth. Intuition and creativity may be heightened. Because the New Moon Eclipse was in the sign of Libra (opposite this Eclipse) see a repeat of the issues experienced during the October 3<sup>rd</sup> New Moon.

**October 24, 2005 - The sun enters intense Scorpio - Happy Birthday Scorpio!** Scorpio is a fixed, water (emotions) sign and will be discussed in next month's issue of Lunar Notes.

**Jupiter begins the month at 24 Libra 34' and ends the month at 01 Scorpio 03'.** Jupiter will be in opposition with the October 17<sup>th</sup> partial Lunar Eclipse. In the Venus ruled sign of Libra, Jupiter is expansive, loving and warm in love matters. Relationships are reviewed and highlighted while Jupiter transits in Libra. Jupiter expands and embellishes what it touches. With Jupiter opposing the Lunar Eclipse watch for heightened emotional

responses in your close relationships. See where Jupiter transits in your natal or progressed chart for further clarification.

**Saturn in Leo** - Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure and karma. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times. Saturn starts the month at 08 Leo 54' and ending the month at 10 Leo 50. Saturn in Leo will restructure what we know about patriarchy, parenting, responsibility, excessive pride and the ego. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Aquarius) or in square (Scorpio and Taurus) you will feel the effects of Saturn in your chart.

**Uranus in Pisces Retrograde** - Uranus starts the month at 07 Pisces 39' and will end the month at 06 Pisces 57'. For instance, when Uranus transits opposite natal Venus, you may encounter a new love or the break up of an existing relationship. If you have a daughter, she may prove more rebellious or in need of freedom. If Uranus is transiting opposite natal Mercury, you may feel more restless and not require as much sleep. You may have sudden flashes of insight. Do not be surprised and the quickness to which you act and respond to events and people in your life when Uranus makes contact with your personal planets. With Uranus in backward motion, the need to turn inward is greater. Keen insights are likely.

**October 26, 2005 Neptune turns direct at 14 Aquarius 49'**. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Leo) or in square (Scorpio and Taurus) you will feel the illusive effects of Neptune's transit the most over time. The dissolution of boundaries and illusions or the uncovering of the truth will be revealed when Neptune transits your personal planets. With Neptune turning direct secrets will be revealed. Illusions shattered and pierced and the veil of denial lifted.

**Pluto starts the month at 22 Sagittarius 02' and ends up at 22 Sagittarius 42'**. Pluto is in a fire sign burning holes in belief systems that no longer suit our life purpose. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. Pluto turned direct on September 1st in your chart, everything you have been regenerating in that area of life will have to change. Change doesn't always feel good. We tend to seek comfort in all things. Pluto isn't necessarily about comfort. Pluto transits feel anything but comfortable. Pluto tends to change you on a very deep psychological level. I compare Pluto's energy to erosion. It takes a very long time for the wind, sun and ocean tides to wear down the beaches and rock. Little by little with each crashing wave, particles of minerals and sand are removed. Over long periods of time, new surfaces and formations emerge sometimes changing the geography of the shoreline. This happens too within our psyche with some assistance from Pluto. Pluto and the 8<sup>th</sup> house is where psychotherapy

finds its strength. Pluto is also about power. Owning your own power in the house Pluto transits is intensely focused at this time.

### **SABIAN SYMBOL'S:**

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

### **NEW MOON - SOLAR ECLIPSE October 3, 2005 - 10 Libra 19'**

New Moon = New Beginnings. New Moons augur a time to start new projects. Seeds (ideas and positive energy) planted during a New Moon will culminate and flourish during the Full Moon. In the sign of Libra, it is a good time to focus on your personal relationships, most importantly the relationship you have to your self. A Solar Eclipse will bring **outer** events into your life. In Libra partnerships and marriage are a focus and emotional fulfillment within those partnerships or marriage. This New Moon emphasizes your feelings and emotions. You may feel more emotional during this time especially if you have planets in the signs of Libra, Aries, Cancer and Capricorn. In Libra, your personal relationships, marriage, partnerships, public enemies or defendant in a law suit may be highlighted.

Eclipses portend events in our lives. Some fear the energy of an Eclipse for they effect inward (Lunar) or outward (Solar) change. This Solar Lunar Eclipse energy is external involving events that come into your life. Pay close attention to your feelings and people who enter your life and new opportunities during the next few weeks. The energy of the Eclipse is most felt a week prior, on the day of, 3 months, 6<sup>th</sup> month, 9 months and up to 18 months afterwards. Try to journal your feelings and events that surface on October 3<sup>rd</sup>, January 3<sup>rd</sup>, April 3<sup>rd</sup>, July 3<sup>rd</sup>, and so on.

### **SABIAN SYMBOL for 11 LIBRA:**

#### **A PROFESSOR PEERING OVER HIS GLASSES AT HIS STUDENTS**

This symbol is one of a need to see what is going on. When we see through glasses we see the image close up like reading. Sometimes we need glasses if we are near-sighted and can only see images up close..so we need glasses to see objects and images further in the

distance. Sometimes glasses increase the size of an object or thing in order that we better view it. Perception is altered either way.

Sometimes we really need a better look at what is going on and take time to really observe yet sometimes it is looking within that is more critical. The ability to read others and "learn" both from our inward and outward experiences is highlighted.

How does this symbol speak to you?

### **FULL MOON - PARTIAL LUNAR ECLIPSE - OCTOBER 17, 2005 - 24 Aries 36'**

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. With an Eclipse, the energy is emphasized and will play out over the next 18 months. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the October 17th Full Moon falls in the sign of Aries, this lunar energy will be emphasized. Aries is a cardinal, fire (intuition) sign resides in the 1st house of the natural zodiac, ruled by the God of War, Mars. If this Full Moon Eclipse conjuncts (same approximate degree) or opposes (180 degrees opposite) a natal planet, you will be more likely to experience the affects of this Full Moon in the area of life (houses) it is located in your birth chart. All lunar issues will be prominent. Lunar issues involve emotions, the emotional nurturing we did or didn't receive, the emotional nurturing we give others, our mother and all women would be highlighted. In the sign of Aries, the personality, temperament, disposition, anger, physical appearance and individuality will be issues. Eclipses portend events in our lives. Some fear the energy of an Eclipse for they effect inward (Lunar) or outward (Solar) change. This Lunar Eclipse energy is internal involving your emotional life. Pay close attention to your feelings during the next few weeks. The energy of the Eclipse is most felt a week prior, on the day of, 3 months, 6<sup>th</sup> month, 9 months and up to 18 months afterwards. Try to journal the feelings that surface on October 17th, January 17th, April 17th, July 17th and so on. The head and face are ruled by Aries and may surface in health issues.

### **SABIAN SYMBOL FOR 25 ARIES:**

#### **A DOUBLE PROMISE REVEALS ITS INNER AND OUTER MEANINGS.**

"Promises, promises" comes to mind. Have you ever promised something you could not deliver? Why was the promise made in the first place? There is a need to be honest to assure the outcome of your situation is what you desire.

A double promise could be 2 in conflict with each other. What is the promise you made to yourself and the promise you made to another? Are they in conflict? Are you or someone close to you being two-faced? What will the promise mean over the long-term. Was the promise sincere or was it made to appease another?

A choice may need to be made. Acting with integrity in your situation is highlighted.

## **SOUL MATES/RELATIONSHIPS:**

### **The Libra/Aries Ascendant/Descendant Relationship Axis (1<sup>st</sup> house/7<sup>th</sup> house)**

As mentioned in past issues, knowing your partners 7<sup>th</sup> house cusp (the relationship house) and the ruler of that house will indicate the type of partner you may attract or are attracted to and the method of relating within a relationship.

The Ascendant or Rising sign is the sign rising on the horizon at the time of birth. This is the face we show the world, our "mask" for which our Sun hides behind. This is our outer personality, temperament and disposition as well as our early environment growing up. It is the way others see us and also gives indication of our physical appearance. The ruler of the Ascendant and the aspects (connections to other planets in your birth chart) further delineate and define your appearance.

The Descendant, or 7<sup>th</sup> house cusp, its ruler and the aspects it makes in your birth chart, is symbolic of the type of partner you are attracted to. The 7<sup>th</sup> house is the house of partnerships of all types including marriage and legal contracts yet also considered the house of open enemies or the Defendant in a law suit.

In relationships, Venus ruled Libra rising is affable, charming, graceful in movement and attractive. If you have a Libra Ascendant, you are deeply upset by injustice and will take great pains to see this corrected. You are refined and discreet yet sometimes aloof. I've never known a Libra Rising who didn't have attractive legs! In love, this placement would require one to be equal in a partnership. Sharing equally in a partnership and compromise would be some of the wonderful characteristics of Libra. Libra is attracted to beauty and balance. Because its ruler is Venus, values, beauty, art, relating and socializing are some of Libra's finest qualities.

With Mars ruled Aries on the Descendant, attraction to a partner who is confident, assertive and dynamic is possible. The person could have an angular face with red or auburn hair. Very often a combative or aggressive, selfish partner may be attracted if those qualities aren't owned in yourself. It is possible to attract a partner who has Mars prominent in their chart. A prominent Mars would be in aspect to the Sun, Moon, Mars or Venus or elevated in conjunction to the MC or conjunct or ruling their Ascendant or Descendant.

Knowing the date, time and place of birth is important in making the determination of the Ascendant or Rising sign, the sign rising on the horizon at the time of birth. This cusp sets up all the other house cusps that are the divisions of the houses or areas of life.

Next month the fixed Scorpio/Taurus Axis will be highlighted.
