**Happy Birthday *Scorpio* the *Scorpion!*** (Happy Birthday Mom ☺) to all of those born from October 23 - November 22! Key Phrase for Scorpio is "**I DESIRE**"

Scorpio abhors phoniness and can usually spot a lie before it is even uttered in word. They are usually honest and loyal. Scorpio Rising (Ascendant) individuals usually have angular facial features and are easily recognized by the eyes. The expression "the eyes are the window of the soul" might be considered the hallmark of one with planets in the sign of Scorpio...and with a twist. You might say that Scorpio Rising people have the unique ability to see into the soul of "others" with their penetrating gaze.

Scorpio's polar opposite (8th house - sexuality, taxes, values of others, others finances, inheritances, death and endings) is the fixed, earth sign Taurus (2nd house - values, finances, aesthetics, issues around personal security). The integration of my values and finances versus others values and finances and security issues are some areas of life for Scorpio, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite, the sign 180

degrees opposite itself. In this case, when under stress, Scorpio can manifest the negative qualities of fixed earthy Taurus, ruled by Venus. Some of those qualities would be the unique stubbornness, inflexibility and fixity of Taurus. Temper tantrums are possible.

If we can't find a way out of these problems  
Then maybe we don't need this  
Standing face to face  
Enemies at war we build defenses  
And secret hiding places  
- Hold Me - Savage Garden

Our icy planet Pluto rules the sign of Scorpio. Some astrologers still utilize the original ruler Mars as Scorpio's ruler. Pluto is considered the higher octave of Mars in traditional astrology. They are sometimes associated with the 1<sup>st</sup> and 2<sup>nd</sup> charkas where instincts and survival issues are centered, 8<sup>th</sup> house versus 2<sup>nd</sup> house issues. I would venture a guess that a Scorpio "invented" the concept of "Soul Mates".

I believe in love surviving death into eternity  
- Affirmation - Savage Garden

Obsessions, compulsions, addictions and uncontrollable passions all fall under Pluto's realm. If your Pluto makes an aspect to a partner's Venus or Mars...sparks fly.. Astrologer Linda Goodman in her book, "Relationship Signs" writes that Venus/Pluto contacts indicate a "soul mate" relationship. There is an indisputable karmic tie between you and it's a powerful one. Even when there are disagreements...it is next to impossible to separate the two of you permanently. Anyone who tries to come between you will not succeed". Pluto has strength and staying power...and I don't really care if Pluto was demoted. It was a planet long before the limited number of Scientists who had the opportunity to vote, actually voted to demote Pluto. Some people have asked if this changes the way I interpret or use Pluto in birth chart interpretations. The answer is absolutely not. The symbolism is the same. In fact the change of status simply underscores the nature of Pluto. Pluto is all about change and transformation.

You're the center of adrenaline  
And I'm beginning to understand

Never want to fly  
Never want to leave  
Never want to say what you mean to me  
Never want to run  
Frightened to believe  
You're the best thing about me

Walk on broken glass, make my way through fire  
These are the things I would do for love.

Farewell peace of mind, kiss goodbye to reason  
Up is down, the impossible occurs each day  
This intoxication thrills me  
I only pray it doesn't kill me...  
- The Best Thing - Savage Garden

Pluto was discovered in 1930. This was a period of time when the atom bomb, made from Plutonium, was being developed. The United States was in the midst of a Depression and Psychoanalysis and Depth Psychology were emerging. Pluto is symbolic of psychoanalysis. The function of Pluto is to transform, liberate and motivate. Sigmund Freud's theories on sexuality (Scorpio and 8<sup>th</sup> house) and Carl Jung's theories of transformation (Pluto) were formulated. Hypnosis, probing the hidden recesses of our mind is also related to Pluto. Both Freud and Jung have Pluto prominent in their birth chart. Additionally, Pluto was assigned to rule the sign of Scorpio since both the planet and its sign are related to the underworld. (Underneath and hidden from view)

Pluto is the planet of power, obsessions, transformation, the depths, what's underneath, sexuality and instincts necessary for survival. Pluto/Scorpio is nothing if not intensely passionate and penetrating. The superficial holds absolutely no appeal for those born under the sign of Scorpio...these guys are "deep" and penetrating...and just try to pull one over on them and you will have an enemy for life. Frankly, you may not know this about them because they have the ability to conceal and cloak themselves in (self protective) secrecy quite well. The planet Pluto ruling the sign of Scorpio is all about redefining and transforming the mundane and outmoded. Scorpios usually have many talents and vocational interests' i.e.: research, psychology, sex therapists, metaphysics, analysis, detective work, surgery, The Mafia, medicine and jobs where scrutiny of data is necessary. Scorpio resides in the 8<sup>th</sup> house of the natural zodiac and so also rules our sexuality and the sexual and reproductive organs of the body. Most Scorpios exude sexuality and are magnetically attractive to others. They have the reputation for being the sexiest sign in the zodiac and the most intense!! The French have a term for orgasm called "la petit mort" meaning, "a little death". Scorpio desires to be swept away through erotic transcendence. This little death experienced through orgasm is both a desire and fear. In Sanskrit, Nirvana means "annihilation" or to be "blown away". <ahem> And what about Scorpio and sex??...Tantric practices, all consuming, mystical, spiritual, sacred sexuality!!...can you say Kama Sutra???

When urgency meets destiny  
So no one can overcome the powers that be

When Pluto transits your birth chart or if Pluto is significantly placed in your birth chart, you may experience a sense of loss during your lifetime. Sometimes something of value is taken away from us or we are forced to make a decision to give up something or someone we thought we could not live without. Sometimes these experiences or decisions "feel" like they are death. Pluto experiences force us to go down as far as we can and hit "bottom". Events, things, beliefs and people that once provided safety and security will no longer under a transit of Pluto. Most often these "things" aren't material in nature. They are

usually beliefs and attitudes about ourselves and about life, perhaps how we experience others or one person in particular. Because Pluto is so slow moving and has its retrograde (backward motion) phases, it is possible for him to pass over a point in your chart 3 times before he has completed his transformative process. When Pluto transits are felt, very often you may feel as if you are descending into unknown territory, and very often you are. It doesn't feel safe yet you know on some deep level that you need to get there. In mythology, the descent into the underworld is classically the feminine archetype. Ariel Guttman and Kenneth Johnson's *Mythic Astrology* refer to this descent as follows: "It represents the acquisition of serpent wisdom, which is defined as feminine wisdom. Medusa had serpents in her hair and Pluto rules Scorpio, the sign traditionally associated with the serpent. Thus the process of initiation through pain, grief, darkness and emotional resurrection is an essentially feminine process. Men don't do well with this particular journey". Pluto experiences and transits are for the growth of the soul and are transformational in nature. If you have Pluto prominently placed in your birth chart, you'll have most likely experienced acceleration in your personal evolution.

Prison gates won't open up for me  
On these hands and knees I'm crawlin'  
Oh, I reach for you  
Well I'm terrified of these four walls  
These iron bars can't hold my soul in  
All I need is you  
Come please I'm callin'  
And oh I scream for you  
Hurry I'm fallin'

Show me what it's like  
To be the last one standing  
And teach me wrong from right  
And I'll show you what I can be  
Say it for me  
Say it to me  
And I'll leave this life behind me  
Say it if it's worth saving me

Heaven's gates won't open up for me  
With these broken wings I'm fallin'  
And all I see is you  
These city walls ain't got no love for me  
I'm on the ledge of the eighteenth story  
And oh I scream for you  
Come please I'm callin'  
And all I need from you  
Hurry I'm fallin'

### **Tarot Card # 20 XX - Judgment - Symbolic of Pluto**

The Symbol of Judgment may appear in a reading during a time of soul testing. You may need to adjust to new circumstances based upon a changed awareness. In the Rider-Waite version, Angel Gabriel sounds a trumpet as he creates air. Air is equivalent to breath. There are seven lines or tones radiating from his trumpet = sounds of do re mi fa sol la ti do. The people below, man, child and woman raise their arms up to the Angel as their spirits unfold. Their gray bodies are symbolic of wisdom.

This card can symbolize something lying dormant within us awaiting emergence into consciousness. Some unconscious truth is being awakened and brought to our awareness. Perhaps we lacked clarity and we're more easily seeing the pathway to truth. Judgment usually speaks of a time of reckoning, bringing to light that which was hidden. Freedom from past guilt and the inspiration to move ahead is possible now. Darker aspects of our personality may have been repressed or stuffed down inside, because of fear. Perhaps this is a time to judge not only your own motives and that of the person in question in your reading.

When this card appears in a reading, you are being asked if your judgments of others are restricting your growth and your ability to create lasting relationships. The need to transform dysfunctional beliefs will elevate you to a higher spiritual vibration. Keywords are renewal, awakening, inner voice, inspiration, spiritual awareness, and having a desire to improve. Negatively: a closed mind, mistakes from following the wrong advice, having a limited viewpoint.

### **FREEZE UP MOON (Snake)**

In Native American Astrology, those born from October 23rd- November 22nd are born under the Freeze Up Moon and their animal totem is the **Snake**. Their gemstone **Malachite** is thought to have spiritual powers and increases receptivity to all forms of subtle energy including psychic energy. Their color is **orange** and their mineral is **copper**. Copper is attributed with many special powers. For years, people who suffer from arthritis will wear copper bracelets or anklets to ease the stiffening of the joints. Copper also conducts electricity better than most other minerals and is usually utilized in electrical wiring. It also conducts heat more uniformly than most over a variety of surfaces and is why you will often see this coating underneath pots and pans.

Snake people have great ability to aid in others growth. Snakes are very adaptable to their environment. They are highly sexual beings, and very sensitive to touch and vibrations, partly because they are cold-blooded and use their environment for warmth. Because snakes have a prickly outer skin, people tend to not want to get too close to them. Once others realize the outer skin is only a protection for their inner sensitivity they will start to develop a closer relationship with Snake people.

**November, 2006**

**Our Moon changes signs approximately every 2 ½ days.**

**October 28, 2006 - Mercury in Scorpio turns retrograde at 25 degrees of Scorpio.**

Mercury in Scorpio is pensive and doesn't miss a trick. Retrograde Mercury in Scorpio will pierce deception and reveal mistruths. This is not a time to initiate anything new. Purchasing of any electronic or computer equipment should be postponed until Mercury, not only goes direct, but passes its shadow point. It is also not an opportune time for surgery, making an important decision or even making purchases. Missed phone calls, mixed messages and computer glitches are likely. Wait for Mercury to turn direct on November 18 at 9 degrees Scorpio.

**November 5, 2006 - 13 Taurus 58' FULL TAURUS MOON.** A Full Moon is a culmination of energy. In the sign of luxury minded Taurus, earnings, values and sensuality is highlighted.

**November 18, 2006 - Venus in passionate Scorpio enters Sagittarius.** Venus in Sagittarius is fun loving and seeks adventure. Freedom to choose, sharing philosophical beliefs and travel is important to Venus in this sign.

**Mars continues in the sign of Scorpio.** Mars in the sign of Scorpio desires intensity and introspection. Mars in this sign is penetrating, suspicious, investigative and methodical. Mars begins the month at 5 degrees Scorpio and ends the month at 25 degrees of Scorpio.

**November 20, 2006 - 28 Scorpio 27" NEW SCORPIO MOON** - New Beginnings in Mars/Pluto ruled Scorpio; changes, regeneration, secrets revealed, sex, death, inheritances and the reproductive system are symbols of this New Moon. New beginnings also involve delving into your psyche, emptying emotional closets, working on your financial situation or long range financial planning....even starting your taxes!

**November 22, 2006 - Sun enters Jupiter ruled Sagittarius.** Happy Birthday Sagittarius! More will be discussed about Sagittarius in our next issue.

**Jupiter in Scorpio** begins the month at 24 Scorpio 52' and ends the month at 01 Sagittarius 17'.

**Saturn, lord of karma** begins the month at 23 Leo 56' and ends the month at 25 Leo 02'. Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure and karma. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times.

**Uranus** continues to retrograde until November 19, 2006 when it turns direct at 10 Pisces 48'. Electric **Uranus** begins the month at 10 Pisces 57' and ends the month at 10 Pisces 51 rx. A sudden resurgence, a new idea, an intense desire for action is possible in the area of life Uranus is transiting

**Neptune** is currently at 17 Aquarius 02' and ends the month at 17 Aquarius 18'

**Pluto** begins the month at 24 degrees Sagittarius. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. Change doesn't always feel good. We tend to seek comfort in all things. Pluto isn't necessarily about comfort. Pluto transits feel anything but comfortable. Pluto tends to change you on a very deep psychological level. I compare Pluto's energy to erosion. It takes a very long time for the wind, sun and ocean tides to wear down the beaches and rock. Little by little with each crashing wave, particles of minerals and sand are removed. Over long periods of time, new surfaces and formations emerge sometimes changing the geography of the shoreline. This happens too within our psyche with some assistance from Pluto. Pluto and the 8<sup>th</sup> house is where psychotherapy finds its strength. Pluto is also about power. Owning your own power in the house Pluto transits is intensely focused at this time.

### **SABIAN SYMBOL'S:**

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

**FULL MOON - November 5, 2006 - 12 Taurus 58'**

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the November 5th Full Moon falls in the sign of Taurus, this lunar energy will be emphasized. Taurus is a fixed, earth sign and resides in the 2nd house of the natural zodiac, ruled by artistic Venus. In the sign of Taurus, this Full Moon will intensify your feelings of or need for security. The desire nature of Venus in Taurus is strong and steady. The urge to decorate or create something of value is possible. A Full Moon increases in light and is always a culmination of energy.

**SABIAN SYMBOL FOR 13 Taurus:**

**A PORTER CARRYING A MOUNTAIN OF HEAVY BAGGAGE**

Porters tend to carry a lot of baggage in the name of service. Perhaps you have a heavy burden to bear. Sometimes the burdens really belong to others yet we willingly taken them upon ourselves. Perhaps in this instance it is best to slow down and reevaluate how much of others "baggage" you really want in your life.

It's important to not take on other peoples stuff or garbage. Others may use you as a dumping ground. It's important to watch your low back and to not carry the weight of others. Empaths most often absorb both positive and negative energy of others. This is a time to cleanse your aura of negative energy.

~~~~~  
NEW MOON - November 20, 2006 - 28 Scorpio 27" The New Moon is about new beginnings. Seeds and ideas that are planted during the New Moon have the opportunity to grow, blossom and flourish during the Full Moon.

SYMBOL FOR 29 Scorpio

AN INDIAN WOMAN PLEADING TO HER CHIEF FOR THE LIVES OF HER CHILDREN

This symbol screams of protecting and standing up for those in your care. There is a need to act on behalf of those unable to do so for them. Perhaps these children misbehaved in some way and the woman fears they will be unjustly punished. Perhaps its time to clear the air and discuss what really transpired in order for the atmosphere to calm down.

According to Lynda Hill this symbol speaks of family dominance. Asking for higher powers to step in to help and heal. Counseling. Protecting younger ones. Divorce. Weaving words to a desired outcome. Intervention and schools.

Where does 29 degrees of Scorpio reside in your birth chart? If you don't know, feel free to call me (732) 462-5239 and we can review your chart.

**SOUL MATES/RELATIONSHIPS:**

**The Scorpio/Taurus Ascendant/Descendant Relationship Axis (1<sup>st</sup> house/7<sup>th</sup> house)**

As mentioned in past issues, knowing your partners 7<sup>th</sup> house cusp (the relationship house) and the ruler of that house will indicate the type of partner you may attract or are attracted to and the method of relating within a relationship.

The Ascendant or Rising sign is the sign rising on the horizon at the time of birth. This is the face we show the world, our "mask" for which our Sun hides behind. This is our outer personality, temperament and disposition as well as how we experienced our early home environment growing up. It is the way others see us and also gives indication of our physical appearance. The ruler of the Ascendant and the aspects (connections to other planets in your birth chart) further delineate and define your physical appearance.

The Descendant, or 7<sup>th</sup> house cusp, its ruler and the aspects it makes in your birth chart, is symbolic of the type of partner you are attracted to. The 7<sup>th</sup> house is the house of all partnerships including marriage and legal contracts yet also considered the house of open enemies or the Defendant in a law suit.

In relationships, Scorpio has a dual planetary rulership. The ancient planetary ruler for Scorpio is assertive Mars, while the modern planetary ruler is transformative and regenerative Pluto. Pluto ruled Scorpio is intense, private, penetrating and sexually alluring. If you have a Scorpio Ascendant, you are private, discreet, and are known for the intensity of your eyes or gaze. Scorpio Rising individuals could challenge anyone in a staring contest and not blink an eye!

With Venus ruled Taurus on the descendant you seek an affable, loving, charming, graceful and attractive partner. Attraction to a partner with those qualities who is artistic, creative, musical, sociable, loving, stable, sensitive, "earthy", practical and sensual is likely. A male with Scorpio Rising would seek a feminine, deeply sensual and monogamous partner who is both reliable and predictable. A Scorpio Rising woman, although she seeks the same qualities as the male, the partner she is attracted to could be more sensitive, in touch with their "yin" nature or even "prettier" than other males. The person would have strong personality, trustworthy, sensitive, dependable and hard working. If you have a Scorpio Ascendant/Rising, knowing your partners Venus placement and the aspects it makes, will tell you a lot about how he/she will treat you in your relationship and how they will act in relationship to you! Venus is what we value and what we are attracted to. In a man's chart, the qualities of his Venus sign will indicate the type of partner he is attracted to. In a woman's chart Mars is symbolic of her ideal man while her Venus placement will also indicate the type of partner she is attracted to. Mars in a man's chart indicates how he will pursue who is attracted to.

One of the first criteria I look at when I have the birth data of a potential partner, is their Venus placement! (My Ascendant is in the sign of Scorpio) A dear Astrologer friend taught me a "Mantra" in locating a partner for myself (thank you Bill!!!)....."Bad Venus....NO Penis! ...couldn't resist... I hope you're laughing...because it's the truth! Scorpions have the "unfortunate" reputation of being the most sexual sign of the zodiac....so... if your potential

partner's Venus placement isn't favorable, you should either "handle with care" or don't even go there! ☺ With 6 planets in the sign of Scorpio today...that might not be a possibility!

It is also possible for a Scorpio Ascendant to attract a partner who has Venus prominent in their chart. A prominent Venus would be in aspect to the Sun, Moon, Mars or Venus or elevated in conjunction to the MC or conjunct or ruling their Ascendant (Libra/Taurus) or Descendant (Libra/Taurus) or Sun sign (Taurus/Libra).

Knowing the date, time and place of birth is important in making the determination of the Ascendant or Rising sign, the sign rising on the horizon at the time of birth. This cusp sets up all the other house cusps that are the divisions of the houses or areas of life.
