**Happy Birthday Sagittarius the Archer!** To all of those born from November 22 - December 21! Key Phrase for Sagittarius is "**I SEEK**".

**Sagittarians** are the Idealists and dreamers of the zodiac. Sagittarius is a mutable (changeable, flexible), fire (intuitive, impulsive, idealistic) sign located in the Western Hemisphere of the chart. Your ruling planet is expansive and "benefic" **Jupiter**. Jupiter and the sign of Sagittarius reside in the 9<sup>th</sup> house of the zodiac. The 9<sup>th</sup> house is typically linked to long distance travel, philosophies and belief systems, religions, higher education and teaching, publishing, counseling and legal issues as well as exploring new horizons. Sagittarius sure does love to teach...or preach for that matter! Horses are usually linked to the sign of Sagittarius and the 9<sup>th</sup> house although most large animals coincide to the 12<sup>th</sup> house. I'll discuss why horses are in the 9<sup>th</sup> when Chiron is mentioned later in the newsletter. There is always that urge to align themselves with a greater ideal, truth and understanding of all subjects. Sagittarians may appear to act larger than life...well if your ruling planet was Jupiter you might feel the same! Jupiter does become excessive at times and that often translates to being overly idealistic, self-righteous and opinionated.

Sagittarians tend to have a dream and a goal..and once they get there, they may change their mind about it because they do not want anyone to burst that idealistic bubble. "Truth, Justice and the American Way" - Was Superman a Sagittarian?

"Faster than a speeding bullet, able to leap tall buildings in a single bound, able to bend steel in his bare hands! Look! Up in the sky! It's a bird, it's a plane, it's SAGITTARIUS!" ☺ Well, he might as well be! Have you ever known a Sagittarian who didn't fly? "Planes, Trains and Automobiles" is their credo. That is where you will find a Sagittarian. Sagittarians are known to be the bachelors of the zodiac and make no doubt about it...these guys are smooth and charming. In fact, you might say charm is their middle name, their first name...and their last name too...only thing is by the time you get to figuring out exactly what their last name is, they are GONE. Poof! Jupiter wants to scale mountains, run marathons, and fully develop every bit of their potential. Sometimes this means going beyond the limits which is why many Jupiter born think they are "off limits" or untouchable. There is always that urge to align themselves with a greater vision. Sagittarians have a unique way of rationalizing everything too. They are known to have foot-in-mouth-disease. Meaning: Open Wide and stick foot in as far as it can go! If you want the truth, nothing but the truth so help you G -d, ask a Sagittarian. They will blurt it out willingly, with an impish smile...and then an apology...if you're that fortunate. This quality is to be admired about Sagittarians because they can be brutally honest and you will always know exactly where you stand when in their company.

**"My stupid mouth, has got me in trouble,  
I said too much again,  
To a date over dinner yesterday,  
And I could see she was offended  
She said "well anyway...."  
Just dying for a subject change.**

**Oh, another social casualty  
Score one more for me  
How could I forget?  
Mama said, "think before speaking"  
No filter in my head  
Oh, what's a boy to do...."**

**John Mayer - Room for Squares CD - My Stupid Mouth**

Jupiter, Sag's ruling planet, has a cycle of approximately 12 years. The planet Jupiter is our largest planet and is known to have quite a few moons! In fact, we aren't even sure how many moons (women) Jupiter has because new ones are surfacing and being discovered all the time! That Jupiter was discovered to have so many more moons shouldn't surprise us because it is the planet of "abundance". He was also known to be a womanizer in mythology. In the October issue of Lunar Notes, we discussed Juno, Jupiter's wife. She was acutely aware of how many moons, I mean women, were in Jupiter's life. Whatever Jupiter touches by transit in your birth chart will literally expand in nature. Jupiter can bring wonderful gifts and some have even called him "Santa Claus". However, you know the

expression about too much of a good thing, right? Sometimes when Jupiter transits areas of your chart, there can be financial gain or weight gain! Excessive behavior, exaggeration or over doing it can be linked to Jupiter.

I can't stand to fly  
I'm not that naive  
I'm just out to find  
The better part of me  
I'm more than a bird...I'm more than a plane  
More than some pretty face beside a train  
It's not easy to be me

Up, up and away...away from me  
It's all right...You can all sleep sound tonight  
I'm not crazy...or anything

I cant stand to fly  
I'm not that naive  
Men weren't meant to ride  
With clouds between their knees

I'm only a man in a silly red sheet  
Digging for kryptonite on this one way street  
Only a man in a funny red sheet  
Looking for special things inside of me

It's not easy to be me. - Superman - Five for Fighting

According to Ariel Guttman and Kenneth Johnson's *Mythic Astrology*, correlations between Chiron, Jupiter and Sagittarius are apparent. It was known that Jupiter spent most of his time pursuing his many love interests. The question of faithfulness always surfaces when discussing the sign of Sagittarius because Sagittarians are always searching or wanting the next adventure, particularly if it is outdoors. They are usually committed to their current partner and that isn't usually the issue. "But how LONG they can sustain themselves in that commitment is another question. "Til Death do us part" is not a credo that Sagittarians hold dear (unless the chart contains strong Juno or Cancer symbolism)..and when pushed against the wall to say those words they usually tremble".

Sagittarius' polar opposite (9th house - higher educations, beliefs, philosophies, legal matters, publishing and teaching) is the mutable, air sign Gemini (3rd house - thoughts, communication, perception, siblings, early education including teachers, short distance travel and automobiles). The integration and forming of philosophies and beliefs are some areas of life for Sagittarius, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite, the sign 180 degrees opposite itself. In this case, when under stress, Sagittarius

can become ...just like mutable, airy Gemini, ruled by Mercury and become scattered, fickle and non-committal.

When Jupiter transits your birth chart or if Jupiter is significantly placed in your chart, you may experience benefit, fortune or excess. For instance, my Jupiter in Libra is located in my 11<sup>th</sup> house of friends, associations, counseling and hopes and wishes. This is an area of my life where I feel most "fortunate" since I've always had the most wonderful friends and have been fortunate in the ability to utilize Astrology in helping others. In the sign of Libra, I enjoy equality in a partnership.

Just a day,  
Just an ordinary day.  
Just trying' to get by.  
Just a boy,  
Just an ordinary boy.  
But he was looking to the sky.  
And as he asked if I would come along  
I started to realize...  
That everyday he finds  
Just what he's looking for,  
Like a shooting star... he shines.

He said... take my hand,  
Live while you can...  
Don't you see your dreams right in  
the palm of your hand?

And as he spoke, he spoke ordinary words...  
Although they did not feel  
For I felt what I had not felt before...  
You'd swear those words could heal.  
And as I looked up into those eyes  
His vision borrows mine.  
And to know he's no stranger,  
For I feel I've held him for all of time.

Please come with me,  
See what I see.  
Touch the stars for time will not flee.  
Time will not flee.  
And you must be

Just a dream, just an ordinary dream.  
As I wake in bed  
And the boy, that boy, that ordinary boy.  
Or was it all in my head?

Did he ask if I would come along?  
It all seemed so real.  
But as I looked to the door,  
I saw that boy standing there with a deal.

Just a boy,  
Just an ordinary boy.  
But he was looking to the sky.

#### **CHIRON - The Wounded Healer, Teacher, Seeker, Maverick, Reversals, Marriage indicator**

In Mythology, when Chiron was born, his mother rejected him because he was born a Centaur...half man and half horse. When his parents Hera & Zeus saw their new son's image they abandoned him, repulsed by his body and physical form. Chiron's first wound was psychological - one of abandonment and rejection and a perpetual longing for the love and "relationship" to his parents, especially that of his mother.

Chiron's physical wound was in his foot and thigh, injured by a poison arrow, affecting his mobility. Sagittarians (horses) need lots of freedom to roam around. When that freedom is restricted or there is a "perceived" restriction then Chiron/Sagittarius really feels wounded. There can't be anything worse than being trapped in a physical body that doesn't feel right to us. Chiron spent much time in his cave studying the stars, medicine, spirituality, mathematics and music. He was able to utilize these disciplines to heal others and in turn heal himself; hence, The Wounded Healer archetype. The astrological glyph or symbol for the sign of Sagittarius is just that, a Centaur holding a bow and arrow pointed to the heavens....and into the distance.

One of Chiron's life lessons is relinquishing his painful memories from childhood. Because Chiron is immortal, his pain and suffering is eternal. Much of his pain was of his own making. When we are able to heal our primary wound (s) in life, we are usually able to utilize that experience to assist others with similar wounds and painful life experiences and in turn, heal our self. That is if we choose this path. Oftentimes, people can be in so much emotional pain and turmoil, or have not forgiven their parents, others or themselves so they choose to harm others as a projection of their own needs not having been met. A vicious cycle ensues and you will attract others to play out your dramas or create a crisis for you to experience, time and again.

As Chiron matured, he became quite a wise teacher (Sagittarius/Jupiter) and a Shaman/ Healer. The placement of Chiron in your birth chart shows your deepest wound by house position and aspects it makes to other planets and cusps (the divisions of the signs) in your birth chart. This is also the place you will find your greatest strengths and ability to heal others and where you are able to exert or project this knowledge out into the environment. Chiron connections are very significant in synastry. Synastry is the comparison of two birth charts that shows compatibility and relationship dynamics with another. When people enter into relationships where there is a strong Chiron connection, the relationship takes on a fated quality. Recent studies have confirmed Chiron as a marriage or partnership indicator. Bizarre reversals in relationships or between the charts are possible. However, relationships indicated by Chiron are usually not easy at first. The difficulties inherent in Chironic relationships must be overcome for the personal growth of both individuals. That is the test of Chiron's placement in relationship comparison. Discussion of Chiron is continued on my website: [www.FuchsiaStars.com](http://www.FuchsiaStars.com)

### **Tarot Card # 20 XIV - Temperance - Symbolic of Sagittarius**

In the Rider-Waite version, you see the Angel Temperance - Archangel Michael. He has the solar symbol on his head with light rays streaming outward from it. In each hand a cup is held, one cup is **silver** (feminine) and one is **gold** (masculine). Water pours and vibrates (waves) and is blended from one cup to the other. This blending of **fire** and **water**, masculine and feminine and the conscious and unconscious also symbolizes conception. The number 14 is the most fertile day of a woman's cycle. It is also the approximate number of days it takes from the New Moon to the Full Moon each month.

Positively Temperance is adapting to circumstances, accommodating as well as gathering facts and expanding ones experiences. Gathering facts and expanding ones experiences is indicated. Compromise, balancing alternatives, moderation is symbolized. Negatively, blind faith, restlessness, being insensitive to the feelings of others, excess and feelings of self righteousness are possible.

The Symbol of Temperance may appear in a reading during a time when emotional balance is required. The expression "patience is a virtue" applies here. There may be emotional days ahead or a need to balance and/or adapt our emotions to bring about positive and "creative" results. If this card turns up next to the Empress or the Sun, a conception or baby may be on the way!

### **LONG SNOWS MOON (Elk)**

In Native American Astrology, those born from November 22nd- December 21st are born under the Long Snows Moon and their animal totem is the Elk. Their color is **black** and **obsidian** is their totem in the mineral kingdom. Obsidian is a type of volcanic glass that is usually shiny like glass. It has razor-sharp edges and therefore should always be "handled carefully." Obsidian was used in carvings and for jewelry as well as for mirrors. It was also crafted for use in arrowheads. Because obsidian comes from deep within the earth it is said to be grounding.

Elk people are very similar to the properties of obsidian. They can be good mirrors for other people as well as projecting "their stuff" onto others. They are often rough around the edges or difficult to get to know because of their uneven outer surface. Elk people can be very protective of those they love or from "perceived" danger. "They try to get as many cows as they can into their harem, and they will fervently defend them from the approaches of any other male". (Medicine Wheel-Earth Astrology, Sun Bear and Wabun) They are often introspective and clairvoyant. The Elk is a very strong and elegant animal and perhaps one of the most regal in the deer family. Men of this totem are competitive with each other about the women in their lives and can be prone to fits of rage or jealousy that may come as a surprise to those close to them.

~~~~~  
December, 2006

Our Moon changes signs approximately every 2 ½ days.

November 25, 2006 - Jupiter change signs from Scorpio to Sagittarius: such a relief!! Jupiter feels at home in his sign: free spirited, fun loving and adventurous.

December 4, 2006 - 12 Gemini 43' FULL GEMINI MOON. A Full Moon is a culmination of energy. In the sign of Mercury ruled Gemini, short trips, the neighborhood, letters and written communications, thoughts, perceptions and mental inclinations is highlighted.

December 6, 2006 Saturn, Lord of karma turns retrograde the month at 23 Leo 04' and ends the month at 24 Leo 30. Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure and karma. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times.

December 7, 2006 - Mars in Scorpio enters Sagittarius. Mars in the sign of Scorpio desired intensity and introspection. In Sagittarius, wants the freedom to choose and roam. Mars begins the month at 26 degrees Scorpio and ends the month at 17 degrees of Sagittarius.

December 9, 2006 - Mercury in Scorpio enters Sagittarius. Mercury in Scorpio was pensive and intense. In the sign of Sagittarius more self righteous yet expansive and open minded. Mercury will end the month in the sign at 4 degrees of Capricorn, changing signs yet again.

December 12, 2006 - Venus in Sagittarius enters Capricorn. Venus in Sagittarius is fun loving and seeks adventure. In the sign of Capricorn, she wants value for her money. Venus

in Capricorn may lack spontaneity but she makes up for it by being responsible, reliable and stable in love.

December 20, 2006 - 28 Sagittarius 32" NEW SAGITTARIUS MOON - New Beginnings in Jupiter ruled Sagittarius; travel, philosophies, religion, legal matters, publications and higher education are symbols of this New Moon.

December 21, 2006 - Winter Solstice, Yule - Winter begins at 00 Capricorn.

December 23, 2006 - Sun enters Saturn ruled Capricorn. Happy Birthday Capricorn! More will be discussed about Capricorn in our next issue.

December 25, 2006 - Merry Christmas to all who celebrate this holy day.

Uranus went direct on November 20th at 10 Pisces 48'. A sudden resurgence, a new idea, an intense desire for action is possible in the area of life Uranus is transiting.

Neptune is currently at 17 Aquarius 19' and ends the month at 18 Aquarius 05'

Pluto begins the month at 25 degrees Sagittarius. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. Change doesn't always feel good. We tend to seek comfort in all things. Pluto isn't necessarily about comfort. Pluto transits feel anything but comfortable. Pluto tends to change you on a very deep psychological level. I compare Pluto's energy to erosion. It takes a very long time for the wind, sun and ocean tides to wear down the beaches and rock. Little by little with each crashing wave, particles of minerals and sand are removed. Over long periods of time, new surfaces and formations emerge sometimes changing the geography of the shoreline. This happens too within our psyche with some assistance from Pluto. Pluto and the 8th house is where psychotherapy finds its strength. Pluto is also about power. Owning your own power in the house Pluto transits is intensely focused at this time. Pluto ends the month conjunct the **Galactic Center** at 26 Sagittarius 59'.

SABIAN SYMBOL'S:

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of

your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

FULL MOON - December 4, 2006 - 12 Gemini 43'.

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the December 4th Full Moon falls in the sign of Gemini, this lunar energy will be emphasized. Gemini is a mutable air sign located in the 3rd house the natural zodiac, ruled by winged Mercury the messenger. In the sign of Gemini, this Full Moon will intensify your thoughts and need for communication: your perceptions may change. A Full Moon increases in light and is always a culmination of energy.

SABIAN SYMBOL FOR 13 Gemini:

A WORLD FAMOUS PIANIST GIVING A CONCERT PERFORMANCE

The pianist, like most musicians, usually begins to play music for the pure enjoyment of making music. Over time these talents become recognized and the public becomes aware of such gifts. It is here in this symbol that the pianist hard work is shared with his audience, in a concert.

Sometimes it's important to show the world what you've got. Sharing your experience, expertise, love of music or your skill receives applause and validation for the hard work you have accomplished. Being "hands on" is indicated.

NEW MOON - December 20, 2006 - 28 Sagittarius 32" The New Moon is about new beginnings. Seeds and ideas that are planted during the New Moon have the opportunity to grow, blossom and flourish during the Full Moon.

SYMBOL FOR 29 Sagittarius

A FAT BOY MOWING THE LAWN

This symbol reminds me of a time when boys actually helped their parents cut the grass or perform some chore! That the boy is "fat" tells me that perhaps he does little around the house or that he sits around watching TV or videos as so many children do today rather than being physically active. In this regard, perhaps he has been pushed or encouraged to help out in the yard when he would much rather being doing something more enjoyable.

This symbol gives me the feeling of having to do something I don't want to do. Because it is the 29th degree, the degree of holding on, perhaps the boy really needed to be pushed out of his comfort zone. This New Moon arrives the day before the Winter Solstice.

Where does 29 degrees of Scorpio reside in your birth chart? If you don't know, feel free to call me (732) 462-5239 and we can review your chart.

SOUL MATES/RELATIONSHIPS:

The Sagittarius/Gemini Ascendant/Descendant Relationship Axis (1st house/7th house)

As mentioned in past issues, knowing your partners 7th house cusp (the relationship house) and the ruler of that house will indicate the type of partner you may attract or are attracted to and the method of relating within a relationship.

The Ascendant or Rising sign is the sign rising on the horizon at the time of birth. This is the face we show the world, our "mask" for which our Sun hides behind. This is our outer personality, temperament and disposition as well as how we experienced our early home environment growing up. It is the way others see us and also gives indication of our physical appearance. The ruler of the Ascendant and the aspects (connections to other planets in your birth chart) further delineate and define your physical appearance.

The Descendant, or 7th house cusp, its ruler and the aspects it makes in your birth chart, is symbolic of the type of partner you are attracted to. The 7th house is the house of all partnerships including marriage and legal contracts yet also considered the house of open enemies or the Defendant in a law suit.

In relationships, Sagittarius has planetary rulership with expansive Jupiter. If you have a Sagittarius Ascendant, you are jovial, friendly, philosophical and an independent thinker.

With Mercury ruled Gemini on the descendant you seek an affable, fun-loving, youthful and witty partner. Attraction to a partner with those qualities who is younger, intelligent, sociable, fickle, a natural born communicator is likely. It is quite possible to attract a second partner or marriage later in life with this placement. In both a male and female chart, the tendency to attract a teacher or mentor type is possible as well as meeting another who appears androgynous in some way.

One of the first things you could look at when you have the birth data of a potential partner, is their Mercury placement since Mercury rules your descendant.

It is also possible for a Sagittarius Ascendant to attract a partner who has Mercury prominent in their chart. Prominent Mercury would be in aspect to the Sun, Moon, Mars or Venus or elevated in conjunction to the MC or conjunct or ruling their Ascendant (Gemini/Virgo) or Descendant or Sun sign in Gemini or Virgo.

Knowing the date, time and place of birth is important in making the determination of the Ascendant or Rising sign, the sign rising on the horizon at the time of birth. This cusp sets up all the other house cusps that are the divisions of the houses or areas of life.
